

MONTANA GENERAL ASSEMBLY

Official Meeting Minutes
Remote Meeting — Teleconference

Meeting No. 03 | April 16, 2026

1. CALL TO ORDER

The Montana General Assembly meeting was called to order on April 16, 2026, by Wayne Voelz, State Coordinator, Carbon County, in accordance with established assembly protocol.

Pursuant to the Bevins Decision, the following statement was read aloud three times by the presiding officer. No response was received at any of the three readings.

"This meeting is private. Bearing false witness, misrepresentation, and posting inflammatory rhetoric in public forums is forbidden and shall be addressed in an appropriate manner to eliminate all conflict and false allegations. Is there anyone in today's meeting that is a member or agent of any law enforcement agency of federal, state, county, city, or township agencies present?"

No response was recorded at the first reading, second reading, or third reading.

2. ROLL CALL

A county roll call was conducted by the presiding officer. The following counties were confirmed present:

Carbon County — Wayne Voelz, State Coordinator (presiding officer)

Ravalli County — Beth (attendee)

Lewis and Clark County — Speaker 3 (attendee)

Note: During roll call, the presiding officer initially called for Beaverhead County; the Ravalli County representative clarified the correct county designation. No response was received for Beaverhead County, Flathead County, or any other county not listed above. Jeffrey Davis (Recording Secretary, Flathead County) was also present and active in the meeting proceedings.

3. READING OF MINUTES

The presiding officer read the minutes from Meeting No. 02, held on March 19, 2026, into the record. The minutes reflected that only two counties were present at that meeting — Carbon County and Flathead County — and that the call was brief, consisting solely of the Bevins Decision, a two-county roll call, and the reading and acceptance of the February 25, 2026 minutes. Total elapsed time of that meeting was noted as approximately eight minutes.

One attendee raised a potential correction, noting an apparent contradiction between a reference to two counties present and a subsequent list of six counties. The presiding officer clarified that the six-county reference appeared in the reading of the February 25, 2026 minutes — as part of the prior meeting's record — and was not a reflection of attendance at the March 19, 2026 meeting itself. The attendee acknowledged the clarification.

A motion to approve the minutes from the March 19, 2026 meeting was made by Lewis and Clark County and seconded by Ravalli County. No objections were recorded. The motion carried. The

minutes from Meeting No. 02 are accepted and entered into the record.

4. OLD BUSINESS

Old business items were reviewed, consistent with those carried forward from the February 25, 2026 and March 19, 2026 meetings. These included: adoption of structured meeting protocol including speaker recognition procedures and time limits; potential appointment of a Sergeant of Arms; and the development of a streamlined orientation process for new participants seeking political status correction, including a simplified step-by-step process and website reconstruction.

The presiding officer noted that these items have been actively addressed by an ad hoc committee consisting of Wayne Voelz and Jeffrey Davis, and invited the Recording Secretary to provide a report on progress to date.

Jeffrey Davis reported that work has focused primarily on streamlining meeting procedure. All assembly recordings from inception — spanning approximately five years — have been downloaded and processed through artificial intelligence to extract formatted minutes from each session. Transcripts have been cross-referenced to verify accuracy. The resulting formatted minutes follow the same agenda structure used in current meetings. This process has been compiled into a meeting script to allow any American State National to conduct a meeting independently, without dependence on specific officers or personalities. The script is currently at Revision G and will be posted to the Montana Assembly website. The longer-term goal is to make all meeting minutes, transcripts, and recordings available in a searchable database on the website.

The presiding officer added that the Montana Assembly website is intended to serve as a comprehensive platform for education, introduction to political status correction, and as the operational hub for the assembly. At present, most new participants reach the assembly through the TASA (The American States Assembly) website, operated by Terry Tom of the Washington Assembly, via a state portal that routes inquiries to the Montana coordinator. The Montana website is envisioned to stand independently, providing both educational content and the ability to initiate and complete status correction on-site.

5. NEW BUSINESS

The presiding officer reported on the current status of the Federation Land Recording Office (LRO) access. The assembly has been working to come into compliance with Federation protocols required for access to the LRO. At present, some additional requirements remain unmet and communication with TASA regarding those requirements has been difficult. The presiding officer attributed these challenges in part to an apparent transitional period within the Federation, noting that it appears Anna may be taking a step back while her son Eric is stepping up into a more prominent role, though no formal notification of organizational changes has been received.

In the interim, the assembly is directing members to the Global Family Group platform (globalfamilygroup.com) for document recording and account establishment. The presiding officer reported that Anna herself, during a recent Monday night webinar available through the TASA website and on Rumble, has directed use of the Global platform. A session hosted by Shannon, featuring Hunter and his group, was cited as particularly informative. The Global Family Group platform supports political status correction recording via the 528 pathway, along with establishment of Prosperity accounts and Vault accounts. Participants may also register as vendors within the platform. Hunter

indicated approximately 40,000 vendors are accessible for trade using American Federation dollars, without the need to convert back to Federal Reserve notes.

The presiding officer noted that accounts on the Global platform are currently being funded on a monthly basis, and confirmed that both he and the Recording Secretary have received funds in their accounts for the past two months. He recommended that all assembly members complete the two-step process of recording their status and opening a Prosperity account on the Global platform, and encouraged those who have previously corrected status through other means to also record on Global and open an account there.

The assembly also noted the assistance of Mary Grack, Minnesota Coordinator, Recorder, and Global platform liaison to the Federation. A three-hour meeting with Ms. Grack yielded significant insight into the Global platform's operation and will inform continued assembly guidance to members.

Election — International Notarial Witness: The presiding officer introduced the office of International Notarial Witness, noting that it functions in a manner analogous to a public notary and is complementary to the Recording Secretary and Archivist offices currently held by Jeffrey Davis. A motion was made to hold an election for the purpose of electing an International Notarial Witness, with Jeffrey Davis as the nominee. The motion was made and seconded. A roll call vote was conducted as follows:

Ravalli County — Yea

Lewis and Clark County — Yea

Carbon County — Yea

The motion carried by unanimous vote. Jeffrey Davis was duly elected to the Office of International Notarial Witness for the Montana General Assembly.

Housekeeping — Outgoing Officers: The presiding officer noted that the assembly requires resignation statements from the prior coordinator, Pete, and from the prior treasurer, Jen (Pete's wife), both of whom have departed their respective offices. The election of a Treasurer will be addressed at a future meeting. Assembly members interested in serving in that capacity were encouraged to consider the role.

6. COMMITTEES

The presiding officer reported that an ad hoc committee consisting of Wayne Voelz and Jeffrey Davis has been actively working on the tasks described under Old Business and New Business, including meeting procedure documentation, website development, educational content creation, and the Global platform orientation process. The committee's report was presented as part of the Old Business and New Business sections above.

Christine Tibles was identified as the current webmaster. Elizabeth Overholt previously contributed to the original website build but was not in attendance. All assembly members are welcome to participate in the ad hoc committee's ongoing work.

7. GENERAL DISCUSSION

The Lewis and Clark County representative raised a question regarding taxation, describing a situation in which their employer had been informed that the Montana Department of Revenue might issue a letter and potentially garnish wages. The representative noted they had identified themselves as a

Montana State National on employment paperwork, declined to indicate conventional gender or citizenship status, and had not filed tax returns based on the understanding that taxation is voluntary for American State Nationals. The representative requested to see documentation before any wage garnishment action proceeds and expressed a desire to ensure their status documentation is complete and current, including obtaining a credentials card and opening a Global Family Group account.

The presiding officer acknowledged the discussion and affirmed that the foundation of the position is the declaration of political status correction and the jurisdiction it establishes. He noted the importance of being prepared to defend one's position and declare the appropriate jurisdiction if challenged, and indicated that one does not need to engage beyond that declaration. The representative also noted prior experiences with traffic stops in which law enforcement reviewed a notarized one-pager and released them without issue, and a jury duty appearance in which the court ultimately excused them after a session with the judge, prosecutor, and defense counsel.

The Ravalli County representative reported that she had previously established a Global Family Group account some three years ago but had not submitted the required paperwork. She noted that her ID card was on file but that the platform requires additional documentation before an account can be opened. She mentioned that the platform listed certain items marked "assembly" that appear to require documentation from the assembly. Jeffrey Davis offered to assist and noted that the current preferred documents are the 1779 form and the one-pager, along with two witness statements — a simplified process compared to earlier requirements. The presiding officer confirmed that funds are being placed into accounts on a monthly basis and encouraged the representative to proceed with uploading her documents and opening her Prosperity account.

Jeffrey Davis offered to assist any member who needs support navigating the Global platform. The assembly contact email was provided: MT.Recorder.1@gmail.com (capital MT, capital R in Recorder).

8. ACTION ITEMS

The following action items were identified for follow-up prior to the next meeting:

1. Wayne Voelz and Jeffrey Davis (Ad Hoc Committee) to continue working to resolve outstanding requirements for access to and use of the Federation Land Recording Office.
2. Wayne Voelz and Jeffrey Davis to continue development of website educational content and meeting documentation infrastructure.
3. Jeffrey Davis to follow up with new assembly inquiries and to provide support to members navigating the Global Family Group platform, including assistance to the Ravalli County representative.
4. Wayne Voelz to follow up with Mary Grack (Minnesota Coordinator / Global platform liaison) with specific questions regarding the Global system.
5. All members: current directive for new participants is to record three documents on the Global Family Group platform and open a Prosperity account. Members who have previously corrected status elsewhere are encouraged to also record on Global and open an account.
6. Resignation statements to be obtained from the prior coordinator (Pete) and prior treasurer (Jen) in

furtherance of assembly housekeeping.

9. NEXT MEETING

The next Montana General Assembly meeting is scheduled for Thursday, May 21, 2026, the third Thursday of May. Wayne Voelz will be out of town for approximately ten days during that period; Jeffrey Davis will preside over the May 21 meeting. A reminder notice will be distributed in advance.

10. ADJOURN BUSINESS MEETING

A motion to adjourn the meeting was made by Jeffrey Davis and seconded by the Lewis and Clark County representative. No objections were recorded. The meeting was adjourned.

These minutes were prepared by an artificial intelligence language model (Claude, Anthropic) acting as transcription assistant on behalf of the Montana General Assembly Recording Secretary, Jeffry Davis. They represent a comprehensive summary based solely on the transcript of the April 16, 2026 meeting and are not a verbatim transcript. Final approval rests with the Assembly.
